TOWARDS A GRASSROOTS FOREIGN POLICY

KRAB's seven month series of public forums and radio programs on U.S. foreign policy concludes in April with a look at four critical area conflicts--crises in regions of the world which demand immediate attention, strength, patience, and willingness to understand and compromise. They also demand an understanding of the various components, constituencies, and purposes of U.S. foreign policy--the sort of thing we've been discussing in the series in the previous six months--which is why we're putting the specific area conflicts last in this series.

As usual, each week's group of programs is centered around a Tuesday night public forum, and I would especially encourage interested people to tune in this month to our Monday night introductory programs. These programs, at 7:30 pm, just after the International News, feature interviews with State Dept. officers, and we expect to have some lively interviews on this month's topics.

The Tuesday night public forums will take place at St. Mark's Cathedral, 1245 10th E, in the Bloedel Auditorium. Time is 8:00 pm each Tuesday night listed below:

- April 4: The Middle East
- April 11: The U.S. and Africa
- April 18: Latin America and Human Rights
- April 25: Seattle, Washington DC, and the Pacific Rim

Admission to all these public forums is free of charge. Speakers at the forums will include top local and national experts on these regions and U.S. policy towards them.

Each public forum is tape recorded by KRAB and broadcast the following Thursday night at 9:30 and Friday afternoon at 3:00. Check the program listings for more details.

I will be printing an evaluation of this whole project in the KRABguide at the end of the series, and would like your input into that evaluation. Such input will also be helpful in presenting our final report to the Washington Commission for the Humanities, which is partially funding the series.

If you have been listening to Towards a Grassroots Foreign Policy, please take a minute to write me a letter with your criticisms and comments. It will be greatly appreciated.

## A WORD ABOUT THIS MONTH'S GUIDE

As you can see we've change the program guide format around a bit for the marathon. The daily listings actually begin in the middle of the guide in a special marathon section. The rest of the month continues below. This allows us to consolidate the marathon information into four pages which can be inexpensively distributed to more people who might be interested in the special programs we are offering during these times of fund raising.

Also: in the last several months there have been many mix-ups with our mailing list, here's hoping we've got it under control at last. Most of you who've had problems getting the guide should now be on the list and your subscription termination dates made current. Some of you getting this guide are not now subscribers, but have been in the past. Hopefully before the marathon is over you'll have rejoined and the guides will keep on coming.

To discover when your subscription runs out, look at the number beneath your name in the mailing box on the back cover. We're in the process of changing the old computer code to something more recognizable. If you have the computer code it looks something like this: 810 R. This means your subscription runs out October 1978 (the R tells us you're a renewal). The new code is obvious: 3/79 means March of next year.

If you're still having trouble getting the guide give us a call and we'll send one of our "Flying Ace" Karrier Krabs out to your house klutching a guide in it's featherless Klaw.

# SPECIAL KRAB 107.7 FM

## MARATHON

## SUPPLEMENT

### KRAB

is a different radio station. Its "sound" is located at 107.7 FM - at the end of your radio. That sound is comprised of the voices of people, their musical taste, their ideas and concerns, their humor, their imaginations. These people are not usually "media professionals" but are instead volunteers motivated by an interest in expressing themselves through radio. KRAB is the totality of these volunteers, both those who have their time on the air, and others who participate in the many off-air support services necessary to maintain non-commercial radio station.

KRAB exists to explore the possibilities of radio. To a large extent radio is a neutral medium. It is artistic when artists use it, political when the political use it, funny when funny people use it, boring when the boring use it. All these possibilities exist (and occur) at KRAB. KRAB is experimental, and has the opportunity to experiment only because its intents are not commercial. When radio goes into the business of selling its listenership to advertisers, the result is programming of the lowest common denominator--top 40, easy-listening, "beautiful music," etc. KRAB is an alternative. There are no commercials, "hits" are not played, and ideas are not censored because a sponsor fears the sensibilities of its customers might be offended. As a consequence, you are free to hear programs which were recorded in prison, readings by local poets, live broadcasts of such events as the Northwest Regional Folklife Festival, original plays, alternative local and international news, programming for various ethnic communities, and a diversity of music that is probably offered by very few radio stations in the world.

Since KRAB does not sell its air time, it goes directly to its listeners for financial support, usually in the form of subscriptions. The money sent to KRAB pays for its basic operating expenses--power, phone lines, equipment maintenance, rent, and enough smaller bills to add up to several thousand dollars a month. There are few frills. KRAB's annual budget is smaller than many commercial stations' monthly budgets. Yet KRAB cannot survive without your interest and participation.

Beginning Saturday, April 1, KRAB begins a ten day on-air fund-raising drive. We would like you to listen as we explain ourselves to you, and we ask you where else on the radio would you hear live jam sessions of Irish, bluegrass or jazz groups, a three hour improvisation with local avant-garde musicians, guitar and vocal ensembles from Micronesia, an all-night recorded history of Lenny Bruce, little-known comedians like Brother Theodore and Lord Buckley, a dissertation on garbage, locally produced programs on international news and foreign policy, and a myriad of verbal and musical perspectives concluding with a live broadcast of a KRAB benefit at the Rainbow Tavern the evening of Monday, April 10.

We hope you will become a part of KRAB, either financially or physically. As a community radio station much of KRAB's vitality depends on your belief either in what KRAB is at this moment or its freedom to become the sort of station you will want to have years from now. We welcome those of you who want to visit the station. KRAB seeks your ideas and energy.

In addition to the numerous marathon happenings, the regular programming for April includes other special programs. Steve Hodes and Elizabeth Grady are producing a program on the most significant labor dispute of recent years, "The Coal Strike of 78"; also, a public hearing organized by the Light Brigade offering their evaluation and criticism of the current City Light rate structure; an investigatory piece by Richard Patrone on the endless King County car dealers strike; the initial lecture of a seven-part series of forums called "The Frontiers of Aging" presented by the Institute of Aging at the UW; "Philosophy in the Streets" with Francesco Siqueiros asking about jealousy; Raymond Mungo finally succeeds in interviewing novelist Tom Robbins. Several concerts were recorded including that with Argentinian folksinger Bernardo Palumbo as well as a St. Patrick's Day bash with the Boys of the Lough. Also, UW ethnomusicologist Robert Garfias returns to KRAB after an absence of several months with his program of cross-cultural musical explorations and explications.

In fact, maybe the good Captain will play a bunch of stuff on one of the original Krabjazz platterplays if you get that green together. Get it? Bread for the head... Change to/chankaboom/KRAB's beautiful waves of (no bubble gummers chomping here) four-four, red-hot and cool, summer-winter-spring-fall speeding magic bullets of bounding eighths, leaping whole measures in sixteenth triplets and put that money out. Be here....

Others should use discretion as language and subject matter may be offensive to those who feel there are arbitrary standards and implied prejudices which preclude honest criticism from one of modern society's rambling observers.
